BECAUSE FAILURE IS NOT AN OPTION

THAT'S OUR MOTTO AND OUR WAY OF LIFE

HERE AT LMT DEFENSE.

WE UNDERSTAND THE IMPORTANCE OF A RELIABLE FIREARM IN THE HANDS OF A SERVICE MEMBER, LAW ENFORCEMENT OFFICER, HUNTER, OR PATRIOT. OUR DEDICATION TO QUALITY, RIGOROUS TESTING, AND UNWAVERING STANDARDS SERVE THAT END.

WE DON'T JUST SELL GUNS, WE BUILD PARTNERSHIPS. 2019 MARKS A DECADE OF THE MODULAR WEAPON SYSTEM WHICH ORIGINATED WITH THE LI29AI IN THE UNITED KINGDOM. TO THIS DAY, WE CONTINUE TO SUPPORT THEIR EFFORTS AND PROVIDE THE SAME MEASURE OF SUPPORT TO OTHER MILITARIES AND SPECIAL OPERATIONS FORCES IN OVER 45 COUNTRIES THROUGHOUT THE WORLD.

THE DEFENDER: LMT'S ENTRY LEVEL RIFLE

LMT has always manufactured top tier firearms. We are constantly developing new innovations in the industry while simultaneously looking for ways to offer an affordable option to shooters new to the LMT platform. The Defender is that rifle, compatible with all the LMT modifications you know and love, but at a fantastic price. The Defender is available in both the MRP® and MWS® platforms as pictured above.

37MM FLARE LAUNCHER

Defense organizations aren't the only group that can make use of our new 37mm flare launcher. This system is compatible with 37mm breech loaded munitions such as smoke, signal, and emergency flares. This makes it exceptional for maritime applications, replicating its 40mm counterpart, or even firework entertainment. The launcher can be mounted to an M4 style weapon system or to our standalone frame.

NEW FOR 2019

SHARPSHOOTER 2

2019 marks ten years of the Modular Weapon System. LMT has released several great developments in firearm technology since the inception of our L129A1, the DMR platform used by the UK. The Sharpshooter 2 marks this anniversary with many of those developments incorporated such as: DMR buttstock, LMT flip sights, FDE custom Cerakote, Gen 3 EDM two-stage trigger group, MLOK upper receiver, and more.

MRP

MONOLITHIC RAIL PLATFORM

MODEL	MRP
CALIBER	5.56 X 45 NATO
OPERATION	DIRECT IMPINGEMENT
BARREL LENGTH	10.5" - 20"
HANDGUARDS	I913 STANAG 4694 RAIL, LM8, MLOK
FINISH	MIL-SPEC ANODIZED ALUMINUM MIL-SPEC PHOSPHATED STEEL
BUTTSTOCK	M4, SOPMOD, DMR
MUZZLE DEVICE	A2 BIRDCAGE OR LMT 3-PRONG
FIRE CONTROL	SAFE / SEMI / AUTO AVAILABLE

With the development of the monolithic upper receiver, LMT harmonized durability, modularity, and accuracy in the AR15 platform. The MRP® is the most robust and accurate rifle system in service, and is absolutely the most modular. The availability of 3 buttstocks, 6 upper receivers, and over 14 barrels allow for at least 250 different configurations. This one system can fulfill the role of a close quarters battle rifle or a lightweight DMR, and it can make that transition in mere minutes without an armorer. The MRP® features an ambidextrous charging handle, fully ambidextrous lower, improved ergonomics, and is considered by many the next generation of infantry rifle.

MRP

M.A.R.S.:

*THE DELTA OF DURABILITY,
MODULARITY, AND ACCURACY*

MARSLI6NZR
NEW ZEALAND REFERENCE RIFLE
NSN 1005-01-650-3550

WHAT SETS THE M.A.R.S. APART FROM ITS COMPETITORS?

- COMPLETE AMBIDEXTROUS CONTROLS: SELECTOR, MAGAZINE CATCH, BOLT CATCH AND RELEASE, AND CHARGING HANDLE
- MONOLITHIC UPPER RECEIVER CAPABLE OF RAPID BARREL CHANGE
- 8 QUICK DETACH SWIVEL INSERTION POINTS
- ENHANCED TRIGGER GUARD
- GEN 3 EDM TWO-STAGE TRIGGER GROUP
- ENHANCED FLARED MAGAZINE WELL FOR EFFICIENT MAG CHANGES

LMT made its mark on the world when the United Kingdom realized the efficacy of the monolithic system. Our engineers weren't satisfied with just the best upper receiver on the market, they wanted to provide a rifle that fulfills the needs of the modern Soldier. Thus, the Modular Ambidextrous Rifle System was born. Depicted above is our commercial equivalent to the MARS-L currently in use by New Zealand Defence Force. Every day, members of law enforcement, military, and special operations communities are adopting LMT systems into their arsenal.

PROFESSIONAL DEFENSE WEAPON

MODEL	PDW
CALIBER	5.56 X 45 NATO, 300 BLACKOUT
OPERATION	DIRECT IMPINGEMENT
BARREL LENGTH	10.5" - 16"
HANDGUARDS	1913 STANAG 4694 RAIL, LM8, MLOK
FINISH	MIL-SPEC ANODIZED ALUMINUM MIL-SPEC PHOSPHATED STEEL
BUTTSTOCK	LMT PDW SOPMOD
MUZZLE DEVICE	A2 BIRDCAGE OR LMT 3-PRONG
FIRE CONTROL	SAFE / SEMI / AUTO AVAILABLE

With the development of the monolithic upper receiver, LMT harmonized durability, modularity, and accuracy in the AR15 platform. The MRP® is not only one of the most robust and accurate rifle systems in service, it is absolutely the most modular. We expanded on this modularity by developing an upgrade kit that reduces the overall length of the rifle system by 3 inches while retaining full functionality. This system is ideal for close quarters environments and has already been indoctrinated into special operations and law enforcement groups for its efficacy in CQB scenarios.

The Confined Space Weapon. Mission built for small environments with discreet requirements. This weapon system is chambered in 300 blackout, has an overall length of 24", and is capable of shooting sub-sonic and super-sonic ammunition with no weapon manipulations. This weapon is designed for close, concealed, and quiet work but has the capability to engage at longer distances. The suppressor utilizes the latest technology formed through a group effort by LMT Defense and Lawrence Livermore National Laboratory. LMT's VBS suppressor has a lower thermal signature, no blowback and is hearing safe with sub-sonic ammunition. All of these features coupled with the modularity and ambidextrous controls of the LMT systems makes for one of the most effective close quarters weapons ever produced.

MWS

MODULAR WEAPON SYSTEM

MODEL	MWS
CALIBER	7.62 X 51 NATO, 6.5 CM, .260 REM
OPERATION	DIRECT IMPINGEMENT
BARREL LENGTH	13.5" - 24"
HANDGUARDS	1913 STANAG 4694 RAIL, LM8, MLOK
FINISH	MIL-SPEC ANODIZED ALUMINUM MIL-SPEC PHOSPHATED STEEL
BUTTSTOCK	SOPMOD, DMR
MUZZLE DEVICE	A2 BIRDCAGE OR LMT 3-PRONG
FIRE CONTROL	SAFE / SEMI / AUTO AVAILABLE

The LMT® Modular Weapon System (MWS®) is built to be everything a soldier needs in a 7.62x51 rifle system: durability, modularity, and accuracy. The system pairs our MARS-H ambidextrous lower receiver with our monolithic upper receiver to offer an incredible number of customization options. The MWS® can be an automatic short-barrel battle rifle or a semi-auto sniper rifle, and it can make that transition in a few minutes; no armorer required! The British Ministry of Defence saw the force multiplier this rifle could be and, after rigorous testing, adopted it as their L129A1.

GRENADE LAUNCHER

MODEL	M203
CALIBER	40 MM, 37MM
OPERATION	SINGLE SHOT / BREECH LOADED
SIGHTS	LEAF OR QUADRANT
FINISH	MIL-SPEC ANODIZED ALUMINUM
BARREL	7", 9", OR 12"
RIFLING	1:48" / 1,219 MM RH, SMOOTH (37MM)
BREECH OPENING	5.43" / 138 MM
EFFECTIVE RANGE	375M (7"), 400M (9"), 425M (12")
FIRE CONTROL	FIRE / SAFE SWITCH

LMT® has been manufacturing grenade launchers and their parts for over 35 years and in that time, we've established ourselves as one of the world's foremost suppliers of the M203. In 2010 we recognized the modern military transition to quad rail forends and designed one of the only grenade launchers in the world that can mount directly to one. We took that a step further in 2018 with the "Shorty 40", a launcher capable of standalone implementation or attachment to an SBR or even an AK. If there's one term that defines LMT® it's modularity; our grenade launchers and their accessories are exceptionally versatile systems useful for lethal and nonlethal operations.

GL

LMT® grenade launchers come in a wide variety of configurations, giving the modern warfighter a choice of weapon size, orientation, and suitability to get the job done.

SHORTY 40

The Shorty 40 stands alone as its own proprietary system with a frame tailor fit to its unique size. It also uses our Professional Defense Weapon (PDW) stock and extension. The pistol configuration fits conveniently in a backpack or holster for quick-draw usage without the need to mount on a weapon system.

M203FL
37MM FLARE LAUNCHER

M203

LMT'S NEWEST GRENADE LAUNCHER: A COMMERCIAL FRIENDLY 37MM FLARE LAUNCHER; AN INCREDIBLE ASSET FOR DISASTER RELIEF OR THE 4TH OF JULY.

Our M203 can act as a standalone launcher or install to an M4/M16 series rifle by either wired mounting bracket or a quick-detach assembly.

L2B/L2X MOUNTED
LEAF SIGHT - LMP391A

Our launcher systems wouldn't be complete without sights, and we offer several different models to suit the operator's needs. We designed the LMP391A, our newest leaf sight, for the New Zealand Defence Force. It attaches directly to our rail mounted launchers.

SIDE RAIL MOUNTED
QUADRANT SIGHT - L3C

TOP RAIL MOUNTED
LEAF SIGHT - LMP390A

M203 ENHANCED

The Enhanced M203 system will accept the 9" or 12" M203 barrel and its design allows it to be rail mounted. This is a perfect companion to our monolithic one-piece upper receivers, allowing operators to quickly add or remove a launcher to suit the mission at hand.

SPM

STANDARD PATROL MODEL

MODEL	SPM
CALIBER	5.56 X 45 NATO
OPERATION	DIRECT IMPINGEMENT
BARREL LENGTH	10.5" - 20"
HANDGUARDS	MIL-SPEC HANDGUARDS
FINISH	MIL-SPEC ANODIZED ALUMINUM MIL-SPEC PHOSPHATED STEEL
BUTTSTOCK	M4, SOPMOD
MUZZLE DEVICE	A2 BIRDCAGE
FIRE CONTROL	SAFE / SEMI / AUTO AVAILABLE

If there's one thing LMT® understands well, it's how to manufacture a robust, accurate firearm. Law enforcement agencies and governments agencies often pursue rifle systems with a simple but effective design, and the LMT® Standard Patrol Model delivers. It is available in several barrel lengths and offers two buttstock options: the standard M4 style or our world renown SOPMOD.
