

Glock 19 Gen5 FS Including Direct Mount Aimpoint ACRO P2

Based on a Swiss Police request, B&T engineered a mounting solution for Aimpoint's ACRO P2 that allows the sight to be directly mounted to the slide, positioning it 4mm lower than what is achievable with Glock's MOS system. This requires a modification to existing (non-MOS) slides. This service and ACRO mounting are both completed inhouse at B&T.

B&T is offering turnkey Glock 19 Gen 5 9mm pistols with this modification done, that ship complete with a direct mounted Aimpoint ACRO P2 red dot sight, threaded M13.5x1 LH barrel to accept B&T Impuls IIA and OLS sound suppressors (suppressors sold separately), polymer sights, (2) 15-round magazines, loading aid, beavertail backstraps, cleaning rod and brush, operator's manual and hardcase.

- Includes Aimpoint ACRO P2
- Direct Mount Milling
- Lower 1/3rd Co-witness w/Factory Sights
- Relocation of Rear Sight
- 13.5x1 LH Threaded Barrel
